SUBJECT: **Continuing Education – October 2017**

With the changing of seasons upon us, and the anticipated arrival of winter, during the month of October we will spend our time reviewing **Respiratory Emergencies**. We will take an in-depth look at common pulmonary emergencies that arise with higher frequency during the fall and winter months.

In preparation for October CE I ask that you take time to review the following protocols:

- **Tab 900; Section U: Respiratory Distress**
- **Tab 500; Section H: CPAP (Continuous Positive Airway Pressure)**
- **Tab 500; Section X: Nebulized Aerosols**
- **Tab 500; Section F: Capnography**

I look forward to seeing you in the coming month. If you have any questions or comments please feel free to contact Brent, Aislinn or myself.
