---

During the month of May we will focus on the latest advancements in Stroke/CVA care. We are extremely fortunate to have our local experts in Interventional Neurology presenting during CE throughout the month. We will then take a look at how this will impact our Stroke/CVA protocol, updating you on the changes being made. Lastly, we will put it all together during hands-on, scenario based training.

Remember, there will be no CE during the months of June, July and August. We will return to CE in September with ACLS (8 hour days). Please schedule your attendance date ASAP through your respective departments as class sizes are limited and there will not be any ACLS make-ups.

I look forward to seeing you in the coming month. If you have any questions or comments, please feel free to contact us at the Lucas County EMS CE Training Center.
