

LEGAL NOTICE

On February 2, 2021, the Board of the Lucas County Commissioners approved a revision to the maintenance base for the drainage infrastructure within the Stone Oak Subdivision, Petition No. 908. If you are a benefitting owner of property for the above-named subdivision, you are hereby notified that the Board has fixed **Tuesday, April 13, 2021 at 2:00 pm** as the time of the hearing on evidence of the reappraisal of the subdivision maintenance base to be held via electronic means as authorized and in accordance with House Bill 197 of the 133rd General Assembly. Affected parties may view electronic meeting details on the Lucas County web-site calendar at the following link: <http://co.lucas.oh.us/calendar.aspx>. Details will be posted within 3 days of the public hearing.

By the Clerk of the Board of the Lucas County Commissioners, Ohio.

Published: Holland Springfield Journal; March 30, 2021 and April 6, 2021

Frequently Asked Questions (FAQ)

Subdivision Maintenance Base Reappraisals

1. Why am I getting a notice?

Your property is a benefitting property for an existing petitioned subdivision's drainage infrastructure (e.g., stormwater retention ponds). This was determined at the time the petition (Petition #908) was approved by the Board of the Lucas County Commissioners. Previously, the maintenance base amount remained at the amount which was approved at the time of petition approval for perpetuity with no method to change the maintenance base to reflect inflation since petition approval. A recent change to the Ohio Revised Code provides for a process to change the maintenance base due to the factors such as inflation.

2. Why is this being done now?

The maintenance base revision process requires the County Engineer to review and recommend changes to the maintenance base every six years to the Board. As this is a new process permitted by code, this is the first time the maintenance base has been reviewed since the establishment of the petition in the 1980s. Therefore, the changes to the maintenance base are significant. In the future, the changes will likely largely reflect inflation over the six-year review period.

3. What is the Maintenance Base Assessment?

The Maintenance Base Assessment is based on the value of the whole project using methods according to Ohio Petition Law. It serves as the basis on which the costs for maintenance would be proportioned for assessment. It also serves as the maximum assessment that any property could theoretically incur. In addition, the Board can choose to collect an assessment for future maintenance in an amount up to 20% of the total maintenance base. The minimum assessment that can be collected per year is \$4. If maintenance work is performed, the maintenance assessment is calculated as follows:

Maintenance Assessment = Property Maintenance Base ÷ Total Maintenance Base x Maintenance Cost

Example: If your Property Maintenance Base is \$1,000 and we have \$100,000 total in Total Maintenance Base, and if the Maintenance Cost for the subdivision is \$2,000, your assessment for maintenance would be calculated as follows:

Given the example above, the maintenance assessment for the property would be:
 $\$1,000 \div \$100,000 \times \$2,000 = \$20.00.$

4. How was the Maintenance Base Assessment breakdown between the golf course and other home/property owners determined?

The Maintenance Base Assessment breakdown follows assessment cost-sharing details included in the original petition and is as follows:

Maintenance Base:

1/3 – Golf Course

2/3 – Split equally amongst residential parcel owners

5. Can I oppose whether my property is subject to assessment?

No. The identified properties are already subject to assessment as a result of the original petition establishment. That cannot change as a result of this process to revise the assessment base.

6. What is the purpose of the hearing?

The hearing is not a “public meeting”. It is actually a quasi-judicial hearing, which is governed by the Ohio Revised Code. The purpose of the hearing is to receive sworn testimony and/or evidence from affected property owners on the amount of their property’s maintenance base. Only impacted property owners, or their representatives, are permitted to testify. This process is similar to the Board of Revision process for real property values. The Board can only consider testimony which is related to the value of the maintenance base and on no other matters.
