# CONTRACTORS WANTED

## Partner with Kleinfelder and help strengthen our community!

Join forces with Kleinfelder and make a real difference in our community. We're looking for contractors year-round to support home repair and rehabilitation projects through the CHIP Program.

Every day, Kleinfelder strengthens communities across northwest Ohio by providing no-cost home repairs and rehabilitation services to income-eligible homeowners. To deliver these services, we partner with local contractors on work bids that may include **general construction, lead abatement, HVAC, electrical, plumbing, roofing, ADA modifications, and other essential improvements.**

Work opportunities are available in **Auglaize, Logan, Lorain, Lucas, Medina, Sidney/Shelby and Wood** counties. Contractors must complete an application and meet eligibility requirements, including liability insurance and EPA/RRP Lead Certification. We are also seeking qualified Lead Abatement Contractors. These programs are supported by the federal funding Community Housing Impact & Preservation (CHIP) program.

**For more information please contact:**

Brandi Cowell, Program Administrator
